

Design:	2022	5000-02-30
Length overall, approx.:		7,96 m
Beam overall, approx.:		2,84 m
Draft, approx. (sterndriv	e):	0,7 m
Crew:		2 persons
Capacity:		1 persons
Payload:	750 kg (including	passengers)
Engines:	1 x in	board diesel

BENEFITS:

The boat is specially designed for harbour and inland operations at low emissions and noise. The design of the forward ProZero cabin ensures a huge amount of daylight, this also improves the personal comfort. The forward cabin ensures amble working space on deck. The boat is significantly lighter than the market average which benefits fuel consumption and adds to the already proven seaworthiness.

OPERATIONAL FEATURES:

Speed, approx.: +25 kt (lightweight condition). Range: Pending engine configuration

DESCRIPTION:

The boat has been built to meet the requirements from the competent authorities.

HULL, DECK AND SUPERSTRUCTURE:

The boat is made of a combination of glass- and carbon fibre as sandwich construction with PVC as core material. This core material acts as a natural buoyancy reserve material, due to its lightweight and zero water-absorption. Moreover, the sandwich construction avoids the use of internal stiffeners, increasing the usable internal space and offers a natural insulation capability, improving the comfort in the cabin and manned compartments.

FENDER:

The fender is constructed of closed cell polyethylene foam. Not deflating with solid core that cannot lose buoyancy or absorb water. Damage is strictly cosmetic keeping crew safe. Fender system absorbs major impacts and retains integrity and shape.

DECK:

Deck and cabin are self-bailing.

Metallic mooring bollards.

Modular and easy detachable aluminium railings.

Lashing points on aft deck for equipment.

Aluminium frame on the aft with strong points for towing and equipment attachment, is available as option.

Protection bar on the transom for engines protection is available as option.

CABIN & COCKPIT:

Hinged door in the aft of the cabin. Windshield wiper. LED lights in cabin and cockpit. Air suspension for coxswain 2 x Padded foldable seats for up to 2 persons.

TECHNICAL:

ENGINES, PROPULSION, STEERING etc.:

1 x inboard diesel equipped with sterndrive. 1 x Volvo Penta D4 DPH Other engine configurations on request, including electric propulsion package.

TANKS:

Navigational lights.

Fuel tank with inspection hatch and filling protection.

ELECTRICAL SYSTEM & LIGHTING:

All electrical wiring in marine cable.
Shore power with control lamp, marked fuses, earth connection and shore cable.
24-volt DC system electrical system.
Main switches with separate battery systems for start, navigation and consumption.
Battery charger with indicator.

NAVIGATION & ELECTRONIC EQUIPMENT:

Electric engine controls. Complete engine instruments with RPM, temperature, oil pressure and voltmeter for start batteries supplied by engine manufacturer. Fuel gauge.

Control panel for all lighting and other electrical equipment. 1 x magnetic Compass.

1 x electric horn.

SECURITY EQUIPMENT:

Manual bilge pump, electrical emergency pump. Portable fire extinguishers.
