With a full beam cabin and large open decks, this boat is the perfect combination of comfort and functionality. The versatile 12m boat can be used for a wide range of tasks, including transportation, inspection, rescue missions, law enforcement, and much more. Whatever your requirements may be, the ProZero 12m Full Cabin Workboat can be customized to meet your unique needs.

With its rugged construction and advanced maneuverability, this boat can handle even the most demanding tasks. With a high speed and impressive maneuverability, this boat can also navigate the most challenging waters and weather conditions.

The ProZero 12m Full Cabin Workboat is also equipped with the latest safety features, including a robust hull construction, advanced navigation and communication systems, and an advanced firefighting system. This ensures that the boat can always provide a safe and reliable performance, even under the most urgent and challenging conditions.

The fender system of the ProZero 12m Workboat is constructed of closed cell polyethylene foam with a solid core, which ensures the safety of the vessel and its crew. The deck features handrails for safe passage, mooring bites, and easy access via the bow with integrated steps. The cabin and cockpit are optimized for on-site work with high attention to minimizing noise and vibration.

The ProZero 12m Workboat is equipped with an electrical system that includes all electrical wiring in marine cable, shore power with control lamp, shore power, 12-volt electrical system, and navigational and LED lights in the cabin and cockpit. The boat also features a complete set of navigation and electronic equipment, including engine instruments,

Length overall, approx: 12,3 m  
Beam overall, approx: 3,1 m  
Draft, approx: 0,8 m  
Speed max: 25 knots  
Fuel capacity: 350L  
Range: 260 Nm  
1x Inboard diesel engine

# 12M FULL CABIN WORKBOAT

The ProZero cabin is designed to offer a huge amount of daylight, which enhances personal comfort while working on the boat. Additionally, this boat is significantly lighter than the market average, which benefits fuel consumption and adds to its already proven seaworthiness. The cabin is mounted on rubber sockets, minimizing vibrations, and the technical installations are compatible with autonomous and remote operations systems.

The ProZero 12m Workboat is equipped with an inboard Volvo Penta D6 engine, a Z-drive with counter rotating duo propeller, and an electric bow thruster, making it a powerful and efficient vessel. It has a fuel capacity of 300L providing good range, making it perfect for extended periods of operation.

To ensure safety and security, the ProZero 12m Workboat has 3 automatic bilge pumps, 3 manual bilge pumps, a fixed firefighting system in the engine room, and fire extinguishers.

With a full beam cabin and large open decks, this boat is the perfect combination of comfort and functionality. The versatile 12m boat can be used for a wide range of tasks, including transportation, inspection, rescue missions, law enforcement, and much more.

Whatever your requirements may be, the ProZero 12m Full Cabin Workboat can be customized to meet your unique needs.

All ProZero Workboats are launched, tested, and calibrated, and have gone through a scrupulous quality control process at the yard in Denmark. The delivery, handover, test drive, and technical review with the customer take place at the yard in Denmark, and all boats are delivered with a complete owner's manual.

Overall, the ProZero 12m Workboat is a vessel that offers high flexibility, performance, and comfort, making it an ideal choice for various tasks and requirements. It is a durable and reliable workboat that can withstand tough conditions while delivering outstanding results.
